Educating Communities for Change

COMPACT 2020 has Three Organizational Divisions:

Education, Prevention, & Intervention

- This division works to identify potential problems in the early stages and to help prevent them from escalating to addiction, incarceration, or other negative consequences.

Community Liaison Team

- The Community Liaison Team is involved in all aspects of the community: schools, businesses, government offices, medical facilities and drug stores in order to better understand the nature of the drug epidemic within each community.

Drug Enforcement Task Force

- The mission of the Shelby County Drug Enforcement Task Force is to create an environment free of illegal drugs within Shelby County and its communities, schools and places of work.

DRUG EPIDEMIC

The United States surgeon general took a stand against the addiction epidemic plaguing our nation. A new report found one in seven Americans will face addiction to drugs or alcohol in their lifetime, but only a fraction of those people actually get the help they need. *(2016 Surgeons General Report)*

- The **United States** consumes 80% of the world's prescription drugs.
- **Alabama** leads the nation for the most pain-killer prescriptions per person.
- **Shelby County** ranked 5th in the state for drug overdose deaths in 2015 *(Alabama Center for Health Statistics).*
